Product Testing Laboratory:

Water Quality Association
2375 Cabot Drive
Lisle, IL 60532-3696
United States

Thank you for having your product tested with the Water Quality Association. We appreciate your business and look forward to working with you on future testing and certification projects. Please see the enclosed test report for a review of the data.

The testing is stated to be "Complete" as the test results are pending further review by the Water Quality Association Certification Department at the time of report issuance.

Should you have any questions or need additional information, please feel free to contact your Account Representative.

Report Number: 20250116.01.6152.2401L.01-07.2401C.V1
Certification Project #: 6152.2401C
Test Unit: 6152.2401L.01-07
Product Standard: NSF/ANSI/CAN 372 – 2020 version: Drinking Water System Components – Lead Content

Test Result Status: **COMPLETE**

Report Reviewed By:

Tana Brady, Product Testing Laboratory Manager

Date

All data for the associated quality control (QC) met EPA, method, product standard, or internal laboratory specifications except where noted in the comments. This report may not be reproduced, except in whole, without the written approval of WQA. The test results relate only to the specific items tested and do not indicate the product is certified by WQA or can display the Gold Seal Mark. All samples were tested/collected and analyzed within the criteria specified in the test procedure and WQA SOP.09006 unless otherwise noted.
